

■ State-of-the-art proprietary industrial facilities

With facilities for machining (boring, grinding, honing, milling), Non-Destructive Tests (dye penetrant, magnetic particle, eddy current, ultra sonic inspections) and cadmium and chromium plating, **HYDREP** fully oversees and controls the overhaul process.

Thanks to cutting-edge proprietary facilities, the company:

- Guarantees the highest quality levels
- Respects delivery deadlines
- Minimizes costs

■ Certifications

■ Certifications : EASA PART FR.145.005
